DIREITOS HUMANOS
E CIDADANIA

In this time of distance, we want to remind you that we are still close.

Stay at home to preserve yourself from COVID-19 is very important, but it is not easy. LGBTI people are even more vulnerable in this context. The intense coexistence can generate or aggravate episodes of **violence and exclusion at home.**

Remember this: **you are free to be and love who you want.**

If you are suffering aggression or threats, look for the services of the Municipal Secretariat for Human Rights and Citizenship of Sao Paulo.

You are not alone!
